Notes from the Meeting

This spring the Center for Health Organization Transformation’s (CHOT) Industry Advisory Board (IAB) held its semi-annual meeting in Houston at Texas Children’s Hospital Pavilion for Women located in the Texas Medical Center. This meeting broke all previous attendance records for a total attendance of over 90 individuals. There were over 25 IAB members in attendance, as well as 14 potential IAB members in attendance.

Over the 1.5 days, a total of 22 research proposals were presented (see: 2106 - 2017 Research Project Proposals). Of the 22 proposals, four proposals were collaborative research proposals with researchers from different CHOT university sites working together. Also, for the first time in CHOT history, all four CHOT university sites will work together on one collaborative research project. After each four-minute presentation, IAB members were given four minutes to provide feedback via the NSF LIFE Form. Following each cluster of presentations, the IAB Chair (Mr. James Gigliotti) opened up the session for a 15 minute question and answer session where IAB members and others discussed the proposals’ research aims and approaches.

Following the meeting, IAB members were asked to rank their top 11 project proposals of the 22 presented. In total, 21 of the 24 IAB member organizations participated in the IAB vote this year.
2016-2017 Research Project Proposals

- Health IT: Enhancing Quality & Safety through Improved Access
- Cost and Consequences of Poor Care Access
- Avoidable Admissions: The Role of Non-urgent Emergency Visits
- Exploring Future Models of Care Delivery for Texas
- Customer Service at Central Texas VA Austin Outpatient Clinic
- Integration of Genomic Data for Precision Health Decision Support
- Evaluation of Patient Monitoring Technology in Various Settings
- Virtual Care Clinics: What Can We Learn from Early Adopters?
- Machine Learning: Knowledge Discovery and Best Practices
- System Analysis of Graduate Medical Education Processes
- Multi-Criteria Evidence-Based Healthcare Delivery
- Precision Medicine: Personalized Drug-Effect Treatment
- Safely Aging in Place: Understanding Informal Caregiver Teams
- Demand Management for Community Paramedicine
- A Person-Centered Approach for Individuals with MCCs
- Sensing Systems for Personalized Telehealth Wellness Management
- Diabetes Education: The Role of CHWs and Variations in Outcomes
- Future Models of Cancer Care: Implications for Space and Design
- Optimizing Care Delivery with Minimal Disruption
- The Cost of Postoperative Delirium
- Falls Prediction and Causality Models in Inpatient Settings
- Value Based Care: Challenges of a Changing Care Paradigm

2016 IAB Fall Meeting Dates & City Selected

The next IAB Meeting will be co-hosted by Pennsylvania State University and Hershey Medical School. It will take place in Hershey, PA on Oct. 25 & 26, 2016. More information about the meeting will be posted on the CHOT website as it becomes available.
